

Instructions for preparing Technical Paper

A Technical Paper is not mandatory for the CIM convention, but highly recommended. Technical Papers submitted by the authors will be published in the CIM Technical Paper Library 6 weeks post-conference. Therefore, all authors should carefully follow the instructions given below and read all pages in order to ensure high quality and uniformity in the publication.

The Joint Copyright must be signed and return to CIM by **May 2, 2021** at the same time you upload your Technical Paper online:

Language

The papers may be written in either English or French; abstracts may be written either in English or French and must appear on the first page of the manuscript.

Number of pages

The length of the manuscript, including all text, tables, figures, illustrations, references, etc., must not exceed eight pages (excluding abstract and biography).

Style

Left, right, top, and bottom margins should be 2.5 cm (one inch). For uniformity, single-spaced justified text is required. Use double spaces between paragraphs.

Type specifications

The font face should be Times Roman, Times New Roman, or CG Times, and the font size should be 11 points. Avoid using all uppercase and italics for the main body of the text.

Text layout

The title of the paper should be centred. Use upper- and lower-case letters in bold type and font size 12. Two blank lines should be left between the title and author(s) name(s). Spell out each author's first name and provide a middle initial. Type the author's affiliation, in italics, immediately under each author's name. Enter three blank lines after the last author's affiliation. Begin the abstract and the biography with the words "Abstract" and "Biography", which should be centered and bolded.

Equations and formulae

These should be typed centred and numbered consecutively with Arabic numerals in the order of their appearance in the text. Leave two spaces between the equation and the text, and between equations.

Units and symbols

The International System of Units (SI) should be used, and symbols clearly defined in the text.

Figures / diagrams / photographs

This category includes both drawn diagrams and photographs - they should be numbered consecutively with Arabic numerals in the order in which reference is made to them in the text without making any distinction between diagrams and photographs. The author should insert all figures as close as possible to the first reference made to them in the text, and captions should be typed in **bold**. Remember: each figure must have a caption.

Tables

Tables must be placed directly on the page, and should be carefully planned as well as neatly typed with the captions above the tables. The first word of the caption and any proper noun should begin with uppercase letters; all other words should begin with lowercase letters. The caption should be left-justified. The tables should be numbered consecutively in Arabic, not Roman numerals (e.g. Table 2, **not** Table II).

References

Each reference must be cited in the text by author(s) surname(s) and year of publication.

Examples:

(Peck et al., 1974)

(Graterol and Naldrett, 1971)

(Treagus, 1973)

References should be listed in alphabetical order at the end of the text in the style shown by the examples below. **Do not** abbreviate the title of the journal.

Examples:

PECK, R.B., HANSON, W.E., and THORNBURN, T.H., 1974. Foundation Engineering, 2nd Edition, Wiley, New York, 514 p.

GRATEROL, M. and NALDRETT, A.J., 1971. Mineralogy of the Marbridge No. 3 and No. 4 nickel iron sulphide deposits. Economic Geology, 66, p. 886-900.

TREAGUS, S.H., 1973. Buckling stability of a viscous single-layer system, oblique to the principal compression. Tectonophysics, 19 p. 271-289.
