

Instructions for preparing your presentation

The format of the conference allows for a **20 minutes** presentation, and a five minutes question and answer period for onsite presenters. The following guidelines are designed to help presenters with their preparation. These guidelines apply to slides projected directly from PowerPoint or other software.

- Slide layout: widescreen 16:9 aspect ratio
- Slides should clarify and complement what is spoken: avoid putting spoken words on slides.
- Many simple slides are better than one complex slide (limit to 7 lines or 20 words per slide).
- Allow one slide per minute.
- Use contrasting colours. A dark background with light text is visually appealing.
- Avoid red or dark blue text: it does not project well.
- Double-spaced text is more legible.
- Sans serif font (e.g., Calibri, Arial) is more legible than a serif font (e.g., Times New Roman).
- Minimum font size 18 pt; headings should be at least 24 pt.
- Do not use ALL CAPITAL LETTERS.
- Ensure the line thickness is sufficient before transferring an image from a graphics package.
- Title slide should contain title, authors' names, date, and location of the presentation.
- Include a "Contents" or "Agenda" slide that identifies headings for discussion.
- Use a separate slide for the heading to be discussed and provide more information if required.
- Apply the same slide colour scheme used on the main title to the contents slides (for continuity).
- The final slide may display the company logo, to be left on the screen during the question period.
- If you are presenting in French, we suggest to have slides in English.
